- 2 year home warranty
- 8 hours of in-house decorator services are also included

CUSTOM & PRE-DESIGNED HOME PLAN OPTIONS

Bella Grove is a 30-acre traditional neighborhood development located within Hollingsworth Park. A single-level living community, homes in Bella Grove are a maximum height of 1.5 stories and have the main living space on one level, with optional bonus/office/bedroom upstairs.

Custom Design/Build and Pre-Designed Home Plan Options are Available within Bella Grove.

All Pre-Designed plans have been pre-approved by the Hollingsworth Park Architectural Control Committee (HPACC) and are ready for construction. Custom designs must be reviewed and approved by the HPACC before construction may begin. A home plan reservation form must be submitted to Verdae by the purchaser/owner for review. Final plan approval will be provided in writing by Verdae to the purchaser and to the builder as confirmation that the selection has been completed. This process ensures that an identical home plan cannot be constructed within two lots (to the left or right) or directly across the street from an approved home site. Plan selections will be approved on a first-come basis, and may be reserved as early as the time of lot contract.

All approved home plans are reviewed periodically by the HPACC and may be retired without notice. Additionally, new pre-approved plans—in keeping with defined design guidelines for Bella Grove—may be incorporated during the neighborhood's construction phase.

**For questions about home pricing or the home plan selection process,
please contact the Verdae Sales Office at 864-329-8383.**
