

PREFERRED ARCHITECT

Neal Prince Architects

Frank Bain

For over 39 years, Neal Prince Architects (NPA) has been designing award-winning custom homes that complement our clients' individual personalities. At NPA, we believe that for a house to become a home, it must fully capture the dreams of its users and the unique attributes of its setting. From the outset, we strive to promote a collaborative approach to design by fostering the client's participation in the process. From modest rural cottages to sophisticated urban penthouses, we prize each and every project that we undertake and take great pride in doing so.

Neal Prince Architects is known for architecture of unusual diversity that works for both its owner and its environment. NPA responds to each home's scope, location, and budget, while realizing each client's goals and dreams as well.

Jim Neal, FAIA founded the firm in 1969 with a focus on residential design. Today, the firm has grown to 35 employees, who work on a wide variety of projects. A dedicated residential studio now directs the firm's tailored home design services.
